

# Live Well Leeds

## Community Based Mental Health Service Service User Newsletter

---

After running a competition at the end of last year a name has now been chosen for the new Community Based Mental Health Service which goes live from 1st April 2019. The service will be called Live Well Leeds and was a suggestion made by an existing service user. Live Well Leeds has been funded by Leeds City Council to deliver support for 5 years with Touchstone as the lead provider. To deliver this service Touchstone will be working in partnership with Community Links, Leeds Mind and 16 delivery network providers.

Existing mental health services delivered by Touchstone, Community Links and Leeds Mind will continue to run as usual until 31st March 2019. People who are still eligible for current services when they end will be able to transfer to the new service and continue accessing support.

Individuals not eligible to access support from the new service will be signposted to appropriate support from alternative providers. The commissioner of the existing mental health services is in the process of arranging follow up meetings with service users in January and February. Further details will be shared by the organisation you receive support from.

Live Well Leeds will have one number, one referral form and there will be a new website for the service when it goes live 1st April 2019. You will be able to refer into the service a number of different ways by phone, email, via the website, posting completed referrals and in person.

There are still co-production opportunities to help with the mobilisation of the Live Well Leeds service.

The next meetings will be held on:

**Tuesday 19th February**

**12-2pm**

**Touchstone House, LS11 6JU**

**Wednesday 6th March**

**10-12pm**

**Community Links, LS14 1AB**

If you would like to attend either of these sessions please email [yourviews@touchstonesupport.org.uk](mailto:yourviews@touchstonesupport.org.uk) to confirm and detail and support you may need to attend.

Any further queries can be sent to:
